

**Kiwanis**  
AIRDRIE FOOTHILLS

**A Life-changing Partnership:**

We are very excited to share with our school and greater community that on February 27, 2019, the Airdrie Foothills Kiwanis Club donated \$950 in support of the development and execution of a specialized Boys Group. The Boys Group will be facilitated by Terry Grill, BSC-Psych & BA-Soc, and will focus on the unique social emotional needs of male students from our Outreach Program. The ten week long project is scheduled to begin in March 2019 and will offer students the opportunity to make community connections that will serve them well as they transition to the workforce and/or post-secondary, as well as provide them with the opportunity to earn credits towards their high school graduation. Research shows that a strong therapeutic relationship is one of the most important factors in determining success in a counselling setting and without the support of our Kiwanis partners, this very important project would not happen. We are looking forward to sharing the positive impact we know this project will have on our students with the Kiwanis members later this spring.

**THANK YOU Kiwanis Club!**

Jim Akazawa Kiwanis Club and Gwen Dawes Harker of RVS Community Learning Centre
